

HELIX™ Sash and Case

The Sash and Case Window, part of the HELIX™ Range, is probably the most recognisable window style in the UK. Georgian style and aesthetics are characteristics of the Sash and Case window, although they incorporate modern technology to meet the demands of the 21st Century.

The Sash and Case is available in three variants; Box, Simplex and Spiral Balanced. The Box and the Simplex are the most traditional style, utilising the weights and cords system, with the Simplex providing an easy clean system. The Spiral Balance uses special springs which mimic the weights and cords without using the same amount of space. This means that the box is now replaced with a more modern casement. Undoubtedly the premium window in our range, the Sash and Case will lend its elegance to any modern or traditional building.
